Video Lesson

This first picture is the reference photo I used while producing the instructional video.

This second image is my finished painting as seen in the video in the next step.

- As an additional bonus, in addition to watching the videos and the materials, there is an option to download the videos and the materials including the source photo/picture and the final painting.

The screenshot shows a dark-themed interface for a lesson titled "Apricot With Rose". On the left, there is a sidebar with the lesson title and a progress indicator showing "0%". Below this, there are two menu items: "Lesson Materials" (with a sub-indicator "0/1 steps") and "Video Lesson" (with a radio button). The main content area on the right contains the text: "purchase you now have unlimited access to all images and video(s) related to the lesson by downloading them here below." Below this text are three download sections: "Image #1 Download" with a file named "Apricot with Rose R... .jpeg" (1.14MB), "Image #2 Download" with a file named "Apricot with Rose Fi... .jpeg" (685KB), and "Video Part # 1 Download". A "Continue" button is located at the bottom of the interface. A red circle highlights the two image download options.
